13 December 2021

Dear David,

Thank you for your letter of 6 December enclosing PACTS' recommendations on the construction and use standards for e-scooters. We will certainly take the time to consider the findings and recommendations enclosed.

You may be aware that the Department will be publishing an interim report in December 2021, summarising findings from the data collected so far, with a final report due in Spring 2022. This will include high level information on the number of trips, average distance and duration, scooter availability, demographic information about users, etc from across the trials. The report will also include a summary of the incidents we have been made aware of and details of the stakeholder interviews conducted.

I am aware that officials from the Department have been in contact with PACTS and have found this engagement very valuable to date. Once the interim report has been published, I hope that you would be amenable to meet again with officials in order to discuss your views on the interim findings.

Kindest regards,

**TRUDY HARRISON**

**PARLIAMENTARY UNDER SECRETARY OF STATE FOR TRANSPORT**
